BELLINGHAM SENIOR ACTIVITY CENTER

Whatcomcoa.org

315 Halleck Street

(360) 733-4030

Welcome

Our mission is to offer a wide range of classes, activities and services for persons 50 years of age and over to encourage emotional, mental, and physical wellness for a healthy, active, and independent lifestyle.

BSAC will be closed in observance of MLK Jr. Day on Monday, January 17th

Director's Greeting

Greetings and Happy New Year!

Before we jump into 2022, I'd like to say thank you for a weird & wonderful 2021. I was so happy that the Center was able to reopen last summer & I was grateful to see many of you returning to programs, activities & volunteering. The care everyone continues to show by wearing their masks & sharing their vaccination cards in an effort to keep one another healthy is truly a beautiful thing. We had a tremendous amount of support from our members, volunteers, & local business community in supporting our two fundraising events which resulted in the Center meeting our budgeted goals for the year despite the long closure with reduced revenue. Thank for continuing to show up & be a part of BSAC!

With the new year, it is time to renew your BSAC membership. New membership cards & parking decals are available at the front desk. Membership fees remain unchanged, \$50 per person or \$15 per quarter and those aged 90 or better are free (please still fill out a new membership card). We hope you will continue to be a member of BSAC in 2022!

May you fill your New Year with new adventures, accomplishments, & learnings. May your New Year bring you reasons to smile. May the year 2022, bring you love, happiness, & health.

Cheers,
Molly

From all of us at the Whatcom Council on Aging

Longevity Stick Returns at BSAC!

The "Longevity Stick" regime incorporates a series of 12 movements designed to improve balance, flexibility, strength, mental focus, breathing capacity, and vitality.

This activity is a low-impact exercise done while standing, using a long, one-inch diameter dowel (or stick) that reduces the risk of injury while improving circulation and balance.

If you have not participated in Longevity Stick before, we recommend that you attend one or both of the first scheduled classes on January 18th or January 21st at 11:00am. Loaner sticks will be available to use on these dates, and our instructors can advise you on getting your own stick. Please wear loose clothing, athletic shoes, and bring a water bottle.

Tuesdays & Fridays, 11:00am-12:00pm in the Auditorium. Free for all BSAC members.

Membership Benefits:

As a member, you have access to:

- Over 100 programs and activities each month
- Access to certified instructor-led exercise classes
- Access to one-on-one tech help
- Access to free-of-charge classes & activities
- E-mail subscription to weekly e-news and special events announcements
- Fitness Center with strength training and aerobic equipment
- Free Internet access and WIFI (wireless internet access) at the Center
- Countless opportunities to meet new friends and share the companionship of long-time friends
- Opportunity to help the Center implement its strategic plan by becoming a member of the Advisory Committee
- Members-only events
- A volunteer coordinator who can help you engage in volunteering at the Center

Thank you for being a member of the Bellingham Senior Activity Center!

Dance Fusion Class

With Eileen

Dance Fusion is a mix of Belly Dance, Bollywood Style (Hindi Folk), and Modern Jazz

Purpose: Fun and health

Benefits: The isolation exercises in this class strengthen the core muscle groups of the body. These aid in better posture, help with one's balance and hip muscles, and help to strengthen muscles of the arms and legs. In this class you will learn dances that strengthen your core and moves that improve your flexibility.

The class: As we age and/or are more sedentary our muscles atrophy. We need to move! In this dance class the focus is on keeping the body agile and getting even stronger. Through the first twenty minutes of isolation exercises, using both inner and outer muscles, we first strengthen our bodies and wake up our muscles. Then we do about 20 – 30 minutes of Bollywood type dances (similar to Zumba). Lastly, we do another 10-15 minutes of cool down exercises. The instructor has modified the movements and choreography over the years as she is also now in her 70's, making the dances more appropriate for those in their late 60's and on up. Dress in comfortable exercise clothing that allows movement and bring a water bottle for hydration.

This class is free of charge to BSAC members and is ongoing each Friday from 1:30 to 2:30pm in the Auditorium. First class is on January 7th.

Learn to Swing Dance!

Love Rock and Roll music? Why not learn to swing dance.

Boogie to those great old tunes and many new ones too. It is fun and easy.

Bill and Jackie will be teaching a class in basic East Coast swing every Friday for 6 weeks starting January 14, 2022. Classes will start at 3pm and last for one hour.

No partner? take control, learn to lead. It is loads of fun and partners are easy to find. Bill and Jackie volunteer their time just for the fun of it, but there is a \$30.00 (just \$5.00 per week) fee for the class that goes to help support the senior center.

Space is limited. Call or visit the front desk to sign up.

Book Reading

Autumn Light: My fifty years in Zen

Come join us for a one-hour author's reading of selections from, *Autumn Light*. Published in 2020, the book is Edwina Norton's story of the life challenges that led her to Zen Buddhism in her late 30s, and how over many years, Zen meditation and Buddhist teachings gradually helped her understand her life and herself. Edwina offers her story to encourage others, perhaps especially women, to challenge long-held, wrong beliefs about themselves.

At age 78, Edwina was ordained as a Zen priest, a requirement of which was to do a rigorous three-month practice period at Tassajara Zen Mountain Monastery in California. The Tassajara schedule involved little sleep, learning many complex ceremonial forms, and an exhausting, fast-paced schedule. The program's hardships, while very difficult to endure, opened her mind to earlier life conditioning and how it had caused suffering over her lifetime. Through the process of writing the story, Edwina was able to resolve deeply held misunderstandings about herself and her life – amazing and unexpected outcomes.

Edwina wrote this book to encourage others to believe that they, too, might resolve impediments to their happiness, and to demonstrate that even as we grow old, we can continue to grow emotionally and psychologically.

Edwina Norton is a life-long amateur painter, published poet, and peace activist. She earned BA and MA degrees, taught English in community college, and had a long career in organizational development. Now an ordained Zen priest, she mentors Zen students in the Red Cedar Zen Community in Bellingham, Washington.

Wednesday, January 26th at 1:00pm in Room 16

Civil Discussion that Crosses Divides

Join us for a monthly discussion group, hosted by BSAC members Miale and Daniel. Join the conversation to listen and learn. Talk and be heard. The discussion will be facilitated for lively participation and understanding between attendees.

This group will meet on the First Friday of each month at 1:00pm.

Friday, January 7th, 1:00-2:30pm

The Supreme Court will rule on abortion rights. Do you think the state should have the right to commandeer someone's body to save a life?

Please register for this meeting. Visit the front desk, call us at 733-4030 or email epierson@whatcomcoa.org.

Is there an issue or problem - personal or global - that is not being solved to your satisfaction? Have an idea for a topic of future discussion? Bring your ideas to the group. We'll exercise our peace muscles and identify new approaches that can improve the situation. (This will likely involve crossing divides!) Leave with new insights and inspiration to be more intentionally peaceful in how we go about things.

Strength Training for Balance

We have 4 areas of fitness that work in coordination for our physical daily function and our recreational ability. These areas are aerobic ability (sometimes called endurance), strength, flexibility, and balance.

Balance is the gateway to fitness, for without balance our ability to perform aerobic exercise through biking or walking/running are severely limited if not totally curtailed. So too, balance is the gateway to performing everyday functional tasks.

As a young person, we could count on having enough balance to do whatever else we wanted to. However, as we age, we must train for balance specifically, like we do for strength and flexibility.

You may ask: “Doesn’t balance get enough training when I’m building strength in the gym and walking for aerobic exercise?” While these activities certainly reinforce the balance you have and can help to maintain your balance ability, to train balance you also need to challenge it through narrowing the base of support, decreasing reliance on sight, and using other methods that enhance our balance ability.

An exercise class focusing on balance while building strength is proposed by Dr. Elaine Cress. This class is intended for the vast array of abilities in older adults. This class is useful in recovery from hip, knee surgery or any other reason we may have lost fitness. It is not intended to replace physical therapy but to be a bridge after physical therapy or in conjunction with it. People who experience frequently falling or worry about falling should have another person with them when starting this class.

Here is what is needed: a chair (essential), hand weights or cuff weights (could be water bottles), elastic band or cord. Abdominal muscles are done from lying on a floor or bed.

The class is one-hour, held over Zoom, 2x/week (Monday & Wednesday), 1:00 PM. Frail to Robust join us for this class. If you use the gym for strength training, this class can be done on the same day or consecutive day. First class is on Monday, January 31st. Link to join will be included in the Enews.

Plan Ahead for Phase Out of 3G Cellular Networks and Service

If your mobile phone is more than a few years old, you may need to upgrade your device before your mobile provider shuts down its 3G network, to avoid losing service. For more information on your mobile providers' plans for 3G retirement and how you can prepare, contact your provider directly. Carriers may be offering discounted or free upgrades to help consumers who need to upgrade their phones.

What is happening? Mobile carriers are shutting down their 3G networks, which rely on older technology, to make room for more advanced network services, including 5G. As a result, many older cell phones will be unable to make or receive calls and texts, including calls to 911, or use data services. This will affect 3G mobile phones and certain older 4G mobile phones that do not support Voice over LTE (VoLTE or HD Voice).

When is it happening? As early as January 1, 2022, though plans and timing to phase out 3G services will vary by company and may change. Consult your mobile provider's website for the most up-to-date information.

What do I need to do? Contact your mobile provider or consult your provider's website for more information about their 3G retirement plan and whether your phone, or other connected device, may be affected. It is important to plan now so that you don't lose connectivity, including the ability to call 911.

January: no program

February 18th: Historic Highway 99: For decades Highway 99 was THE road to travel north and south from border to border through Washington, Oregon and California. Marilyn will unveil the original route, some of the iconic landmarks, and what's left along the way.

Book Buzz

No meetings in December or January. Join us in February for a discussion on:

The Whole Town's Talking, by Fannie Flag

During the 1800s, conditions in Sweden, which had a strict class division, led to crop failures, malnutrition and disease. But until 1840, Swedish law restricted emigration; after that, between 1851 and 1930, 1.2 million Swedes emigrated to North America. Many of the immigrants settled in the Midwestern States. At the time of the story, you could order a house from the Sear's catalog.

Buzz on in, Feb. 21st at 10:30am in Rm. 1

Some questions to ponder about the book: Why was the Nordstrom's marriage a success? Why was owning their own land so important? Why was it crucial to depend on your neighbors? How did the author use the town to reveal the wider world? What was the significance of the cemetery?

Sneak Peak at the book for March: *The Light Over London* by Julia Kelly 2019: Cara finds a diary of a woman who lived through World War II in England, with a love affair in a war torn country.

A Resolution of Moderation

Meals on Wheels and More Staff

For many, January is a time when we resolve to make diet or exercise related changes to improve health and/or lose weight. Often these resolutions are somewhat extreme and very difficult to maintain long-term. We might resolve to cut out simple sugars or caffeine or to exercise for one hour every day. However, after a week or two we miss a day of exercise or eat a cookie and then ditch the plan altogether. While resolving to embrace moderation may not feel like a true New Year's resolution, it can be much healthier and easier to maintain than more extreme alternatives. One area where we can resolve to incorporate moderation is in our food portions. Overeating is not only a challenge for weight control, but also for those with diabetes who are concerned about maintaining their blood sugar levels. Here are a few suggestions to help you adopt a moderate eating approach for 2022.

- Use smaller plates. You will feel more satisfied if your plate looks full, even if the portions are smaller.
- Make healthy choices easier. Stock up on healthy food choices and keep the high calorie, high sugar and high fat foods out of the house or at least out of sight!
- Check your emotional state: You are more likely to overeat when you are sad, stressed, bored, or anxious. Realizing your mood is the first step to combat those feelings, rather than eating as a solution.
- Occasionally allow yourself small portions of your favorite treats. Enjoy them without guilt and you will be less likely to feel deprived or overeat.
- Don't skip meals even if time is limited as you will likely overeat later. Make a plan and stick to it! If the plan needs changing, do it and keep going! For example, for breakfast keep simple and fast foods handy like bread or English muffins to toast. Add peanut butter or a hard-boiled egg (keep cooked hard boiled eggs in the fridge for easy access) and a piece of fruit and you are on your way in no time!
- Do not go to a restaurant or event overly hungry. Eat a healthy snack at home before leaving.
- Set aside half of large restaurant meals before eating. Not only will this provide you with tomorrow's lunch, but you will be less likely to keep taking "one more bite."
- When you mess up, forgive yourself. Tomorrow is a new day. Start fresh and move on.
