Monday, August 10th at 12:15pm - Food

Eating Your Way to Happiness - Food shapes not only how long we live but how good we feel. So what's the scoop on food and happiness? There's no doubt that ice cream, cookies, and chips have brought a lot of smiles to a lot of faces. But we also know that there's more happiness in health than in sickness. Food Revolution Network founder Ocean Robbins shares his remarkable family story, and how food can contribute to a thriving life.

The role of food in health - The biggest impact on your health is not with a blockbuster drug, it's not with a new pioneering surgical technique, it's with the simplest solution. It's how we feed ourselves. Dr. Rupy Aujla is an NHS doctor who believes modern medicine is fundamentally missing a focus on nutritional medicine. Rupy's TEDx talk explores the medicinal effects of different ingredients and debunks some common 'diets', focusing on how we can make 'culinary medicine' rather than fad diets the default option.

Monday, August 24th at 12:15pm - Thought & Imagination

The art of unexpected solutions

Using lateral thinking to find breakthroughs

Imagination: It's Not What You Think. It's How You Think - Charles Faulkner challenges the common understanding of imagination, arguing it is a fundamental cognitive process rather than a mere creative tool. Through historical examples and behavioral insights, this talk explores how mental shortcuts shape perception and reality.

Are You Open Minded? Three Ways to Break Thinking Patterns - Paul Sloane explains how confirmation bias hinders creative problem-solving by locking individuals into rigid thinking routines. Learn practical techniques to challenge assumptions, introduce unexpected elements into your thought process, and unlock breakthrough ideas by facing the unfamiliar.

Exploring Your True Self Discussion Group

We all have wonderful qualities within us. Explore what they are, how we have expressed them, and how we can expand them. A list of quotes related to the topic of discussion will be provided by the facilitator, and we will have the opportunity to discuss and expand on the quotes that we identify with or that stick out to us. It will be empowering to discover and share these positive qualities that we all possess.

Tuesday, August 11th at 2:30pm & Thursday, August 27 at 1:00pm

Continuing on the 2nd Tuesday of each month at 2:30pm and the 4th Thursday at 1:00pm.
